

Green Family  
THERAPIES

Green Family Therapies is excited to offer *PEEPS!* (Peers Establishing and Expanding Pragmatic Skills) at United Christian Academy! *PEEPS!* is a social skills development program created to support the establishment of positive and appropriate peer interactions, and friendships, between students with social challenges and those without. The program will be conducted during lunch time, once per week. A few skills to be targeted during the program include:

- Conversational skills
- Cooperative play skills
- Friendship management
- Self-regulation
- Empathy
- Conflict management

*PEEPS!* relies on the participation of both students with and without social challenges. If you believe your student would benefit from participation in the program as either a model or as a student presenting with challenges in any of the listed areas above, please consider either recommending them for participation or signing the permission form allowing their participation.

I look forward to leading an exciting and engaging social group to support the students of United Christian Academy! If you should have any questions regarding the *PEEPS!* program, please contact Alexandria Green, Speech and Language Pathologist, directly.

Many Thanks,

Alexandria Green, MS, CCC-SLP  
Speech and Language Pathologist  
Director of Green Family Therapies
