COME DISCOVER UC ACADEMY

By keeping teacher-to-student ratios low, our teachers can give proper attention to individual student needs. We use proven, effective teaching methods, blending a traditional approach with modern technology and recent educational research. One of our primary academic goals is to prepare students to attend the college of their first choice.

Beyond academics, we seek growth of the whole child: mental, spiritual, physical, and social. Our holistic approach, founded in the Christian faith, enables students to discover their life's purpose and equips them to fulfill it with excellence.
