

UNITED CHRISTIAN ACADEMY 2018 Academic Test Results

Scholastic Aptitude Test (SAT) Results:

The SAT is an optional test that is usually taken by students trying to obtain admission into a four-year college. At Upland Christian Academy, approximately 90% of Juniors and Seniors take the SAT.

2018 SAT	Reading	Math	Writing	Total
National	553	558	No longer a requirement of the test	1111
California	540	536		1076
UC Academy	534	557		1091

2017 SAT	Reading	Math	Writing	Total
National	538	533	No longer a requirement of the test	1071
California	531	524		1055
UC Academy	561	588		1149

2016 SAT	Reading	Math	Writing	Total
National	493	505	480	1478
California	491	500	485	1476
UC Academy	524	544	513	1581

ACT Results:

The American College Test is an alternative college-entrance to the SAT, and about 10% of our Juniors and Seniors take the ACT.

2018 ACT	English	Math	Reading	Science	Composite
National	20.2	20.5	21.3	20.8	20.8
California	21.8	22.5	23.0	22.1	22.7
UC Academy	22.5	22.0	22.7	22.4	22.0
2017 ACT	English	Math	Reading	Science	Composite
National	20.3	20.7	21.4	21.0	21.0
California	22.5	22.7	23.1	22.2	22.8
UC Academy	26.3	22.0	22.3	22.5	23.5
2016 ACT	English	Math	Reading	Science	Composite
National	20.1	20.6	21.3	20.8	20.8
California	22.1	22.7	22.9	22.1	22.6
UC Academy	22.9	22.9	22.7	21.4	22.6

MAP Testing Results (Spring 2018):

UC Academy uses the Measures of Academic Progress (MAP) for standardized testing of students in grades K-11. MAP uses a **RIT Score** to measure student progress. (“RIT” is a nickname for “Rasch Unit,” named after the scale creator.) The RIT measurement works a lot like a parent measuring a child’s height on a door post. The child may stand at 4’ 2” at age 9 and at 4’ 4” at age 10. In the same way, a RIT score measures the student’s progress from year to year regardless of grade level. A student scoring “220” on the math test, for example, means that he/she has learned the math objectives up to that point along the RIT continuum. The teacher and student will use that data to identify objectives and goals so that the student will advance further along the RIT continuum when tested again in the future. The student’s RIT score is then compared to how other US students of the same grade performed, and that comparison is measured as a **Percentile Ranking (PR)**. The ranking ranges from a low of 1 to a high of 99, with half below the 50th percentile and half above it. A PR of 70 means that the score is higher than 69% of other students in the nation and is in the top 30th percentile.
