ATHLETIC BOOSTER CLUB

2019-2020
JUNIOR HIGH &
HIGH SCHOOL
FALL SPORTS

UCA Family,

Welcome to our first sports program from UCA Athletics Booster Club! As our fall sport seasons are underway, we wanted to send you an introduction and update on the UCA Athletics Boosters Club. UCA 'Boosters' is an organization run through our UCA community that specifically helps fundraise for UCA Athletics. The Boosters Club seeks the growth and development of each sports team and is excited to include you in on the four specific ways you can support athletics here at UCA:

1. Come to our Boosters Club meetings! (see below for calendar dates)
2. Spring golf tournament (details coming soon)
3. Seasonal sports program featuring each of our UCA athletic teams along with partner businesses
4. UCA business banners featuring your business posted at our athletic contests

Are you the owner of a business and have students here at UCA? Do you have friends or people in your circle that live in the Inland Empire who would be interested in advertising through UCA? If so, see the flyer in this program for pricing and available options on how to become a business sponsor. We're excited to create this relationship and support with local businesses in our area and within our school families (flyer is also available in the school office)!

We look forward to the upcoming year in UCA Athletics and hope you can find numerous ways to not only support our teams by going to games, but by building a relationship with us through our Athletics Boosters Club.

GO EAGLES!

Nathan Kok,
Athletic Director

UC Academy Boosters Club Calendar 2019-2020

*All meetings will take place at 7 PM and will usually be held on the fourth Tuesday of the month in room E102.

AZUSA PACIFIC UNIVERSITY PARTNERSHIP

UC Academy has entered into a matriculation agreement with Azusa Pacific University in which UC Academy High School graduates will be given guaranteed admission AND \$10,000 of base scholarship per year at APU. The agreement went into effect this 2017-2018 school year, and is available to graduates who are continuously enrolled for 4 years of high school at UCA, earned a GPA of 3.0 or higher, scored 990 or higher on the SAT (UCA average is 1149) or scored 19 or higher on the ACT (UCA average is 23.5). UCA graduates would still be eligible to pursue other scholarships offered by APU as well.

“While financial considerations are important, the value of Christian education goes well beyond dollars and cents,” Superintendent Tim Hoy comments. “One cannot put a price on skillful, godly, confident children that positively impact their world for Christ while living lives that count for eternity. This is your ultimate goal for your children, and it is ours too. You can count on us to provide your children with academic excellence while helping them develop authentic Christian character.”

MOBILE RV REPAIR

MICROSOFT OFFICE CERTIFICATION PROGRAM

FREQUENTLY ASKED QUESTIONS

Why Microsoft Office Certifications?

Microsoft Office is the foundation of business technology. With over 1.2 billion users Microsoft Office is used throughout the globe and remains the #1 platform for business. By equipping UC Academy students with curriculum, testing, and certification it will prepare our students for a technologically driven future.

What is the Value of a Microsoft Office Specialist certification?

This program will give our students a great advantage as they move into college and ultimately the workforce. In high-growth industries, entry-level employees who hold a Microsoft Office Specialist certification can earn up to \$16,000 more, annually, than their peers.

In addition, once certified, students may earn college credit pending on the Universities policies.

What should my child expect?

The good news is that if your child has been in our school for more than a few years it's likely that they have already been exposed to many of the learning objectives that are required to pass the exam. In their assignments, students will see specific requirements that enable them to demonstrate various functions of Microsoft Word. Our partner in this venture, Tech Cleanup, will provide online based training which not only supports our students but our teachers as well, to ensure simple and complete understanding.

Once they are ready for the certification exam students will be provided with a practice assessment to ensure they are ready to pass the exam. After successful completion of the practice assessment, they will take the assessment in our schools Microsoft testing center.

Is getting certification required?

Obtaining certification is not required, however with as much value as these certifications provide we hope that all students in grades 6-12 will do their best to become certified!

Will this Require Extra Time of My Child?

Due to the Microsoft Certification content being embedded into the classroom assignments, time spent outside of the classroom or assignment expectations is up to the student and parent.

How can I help my child?

You can help your child by encouraging them as they pursue certification. In addition, review and assist them with the materials provided within the Tech Cleanup Academy web-based learning system. This system is provided to our students at no cost and will play a key role in getting your student prepared to pass the exam.

This sounds great, but what will it cost?

No costs will be added to the upcoming school year.

How long is a Microsoft Certification good for?

Once a Microsoft certification is earned that certification is registered with Microsoft and stays as part of the student's record forever. Microsoft may release future versions of the certification tests, which students can take to further their certification portfolio.
